

Levan Surguladze

Middle IT Support Specialist | Junior Software Developer Candidate | C# / Unity / IT Automation

Tbilisi, Georgia | levan.surguladze.dev@gmail.com | +995 598 45 41 43

PROFESSIONAL SUMMARY

Middle IT Support Specialist with 2 years of experience in a banking IT environment and career progression from Intern to Middle level. I work on infrastructure support, Active Directory, endpoint management, SharePoint-based internal applications, automation, and monitoring systems. My goal is to apply my technical experience toward Software Development, especially with C#, Python, JavaScript, and Unity.

TECHNICAL SKILLS

Programming / Development	Systems & Tools	Support / Infrastructure
• C# • Python • JavaScript • CSS • Unity	• Active Directory (AD) • SharePoint • ManageEngine Desktop Central • Windows Server • RDP	• Hardware diagnostics & repair • System monitoring • Basic Networking • VoIP • MS Word, Excel, PowerPoint

WORK EXPERIENCE

Middle IT Support Specialist — Credo Bank

2024 - Present

Career progression: Intern -> Junior -> Middle

- Designed and built a SharePoint-based work application integrated with Active Directory (AD), which automatically processes field visit checklists and reports.
- Working on a Self-Service Password Reset (SSPR) portal aimed at reducing repetitive Helpdesk password reset requests and improving user self-service.
- Developing a PC Dashboard monitoring system for real-time visibility over devices within the bank network and improvement of support processes.
- Providing daily technical support in a Windows environment: user workstations, AD, RDP, endpoint management, hardware/software diagnostics, and basic networking/VoIP issues.

PROJECTS

The Tale Of Beta — Unity / C# Game Project

Personal Project

- Developing a low-poly exploration/survival game in Unity, working on inventory UI, interaction prompts, item/crafting ideas, character and environment design, and planning core gameplay systems.

Internal Automation & Monitoring Tools — SharePoint / AD /

Work Projects

SSPR / Dashboard

- Creating internal tools that reduce manual work, improve monitoring, and increase the efficiency of IT support processes.
